#### Add Submission

**Submission Type** File Upload

**Submission Title**

**Submission Part** Part 1

**File to Submit**

By checking this box, I confirm that this submission is my own work and I accept all responsibility for any copyright infringement that may occur as a result of this submission.

4. Check the box by clicking it and click Add submission to upload the file to Turnitin database.

5. You can see the similarity result and view the detail of your file once you submitted by clicking the file name. The following is the example of page that you can see from the Turnitin Detail report.
  - a. Click **Originality** to see the **percentage of similarity**
  - b. Click on link to see the detail of similarity

6. Click . You can click **Download pdf of current view for printing** to save your report in pdf version.
7. Only student and the coordinator can see the result but NOT your supervisor. Hence, it is **highly recommended** if you could provide the Turnitin report (in pdf form) to you supervisor **before** he/she agreed with your final submission. Do inform your supervisor not to upload your work on your behalf as it will increase the similarity percentage when you re upload the file.
8. If you need to do multiple submission (after a few amendment) make sure that you use **the same username and password**. The latest uploaded file will overwrite the previous files.

I hope that the simple guideline helps. If you need any help with Morpheus and/or Turnitin, please contact:
